

DESIGN TECHNOLOGY

Included in your pack:

- Sheet of brown card

What you will need:

- Scissors
- A ruler
- Sellotape, glue stick or stapler (please ask for help from an adult if using stapler)
- Glue stick or similar shaped object for bending
- the card around

Step-by-step instructions for Ron Arad – Well Tempered Chair 1986

- Cut out your strips to model the Ron Arad chair, six equal widths approx. 6cm wide

- To make the arms, bend two of the strips roll round a cylindrical shape to create curves

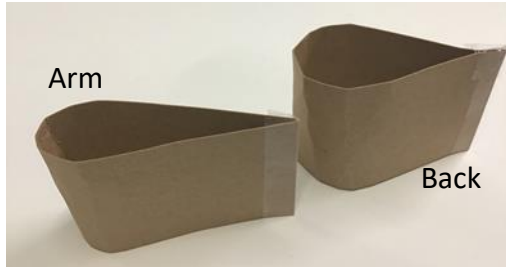

- Secure together at end – we used Sellotape

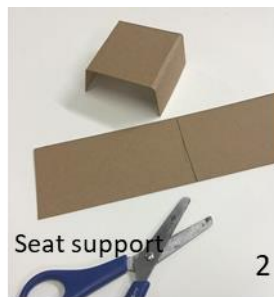

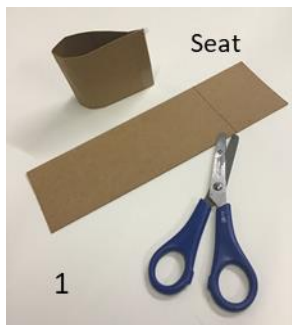

- The back of the chair is made in the same way as the arms – it just needs to have a bigger curve

- Next, make the seat and the seat support

- Here's a close up of how it's all fixed together from underneath
The model

We've given you the instructions for two more iconic chair designs, they are a little bit trickier so don't be afraid to ask for some help from your family!
